The Culture

Partin and Associates has "shared" events where 2-3-4-or 5 clients are at the same event. For example, three clients at Pebble Beach at the same time, sharing the fixed costs for this event. Each participating client lowers the cost for all clients. Cost decreases while value grows.

In addition, all estimated expenses that come in under projection are deducted from your final invoice. The Partin & Associates culture creates the right event with the right atmosphere at the right cost.
